Packing and Shipping:

Packaging and Shipping Ice Cube Tray

Ice Cube Tray should be packaged in a secure box with a secure top.

The box should be securely taped so that the tray is not damaged during shipping.

The Ice Cube Tray should be shipped with a tracking number so that it can be tracked during transit.

FAQ:

Q: What is an ice cube tray?

A: An ice cube tray is a kitchen tool used to make ice cubes. It usually consists of a tray with individual molds for each cube.

Q: What materials are ice cube trays made from?

A: Ice cube trays can be made from plastic, metal, silicone, or rubber.

Q: How many ice cubes can a tray make?

A: The number of ice cubes a tray can make depends on the size of the tray and the size of the individual molds. Generally, a single tray can make up to 24 cubes.

Q: Are ice cube trays dishwasher safe?

A: Yes, most ice cube trays are dishwasher safe.

Q: How long does it take for ice cubes to freeze?

A: It usually takes about 3-4 hours for ice cubes to freeze completely.
